Il campionario finiture Alf DaFrè si arricchisce oggi della nuova finitura "laccato micalizzato" nei colori Oro e Palladio.
Tale laccatura prevede l'utilizzo di pigmenti a base di polveri di metallo, che creano un effetto di brillantezza dai sofisticati effetti perlati.

The Alf DaFrè finishes sample range has been extended to include the new "pearlescent lacquer" finish in Oro and Palladio.
This lacquering uses metallic powder pigment to create a shiny, sophisticated pearly effect.

El muestrario de acabados Alf DaFrè se completa hoy con el nuevo acabado "lacado micalizado" en los colores Oro y Palladio.
Para este proceso de lacado se utilizan pigmentos a base de polvo de metal, que crean un efecto brillante de sofisticados matices nacarados.

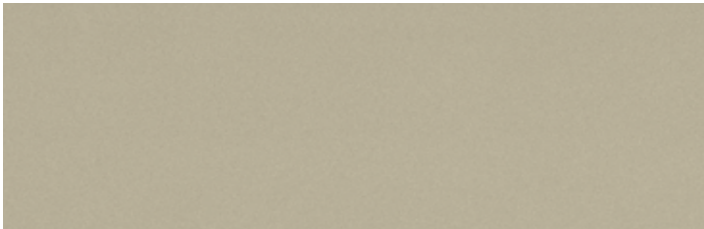

Le catalogue des finitions Alf DaFrè s'enrichit aujourd'hui de la nouvelle finition « laqué micalisé » dans les coloris Oro et Palladio.
Ce laquage prévoit l'utilisation de pigments à base de poudres de métal, qui créent un effet de brillant aux sophistiqués effets perlés.

Das Musterbuch von Alf DaFrè erweitert die Auswahl der Ausführungen um „Metallic lackiert“ in den Farben Oro und Palladio.
Bei dieser Lackierung werden Pigmente auf Metallpulverbasis verwendet, die einen speziellen Glanz mit eleganten Perlmutteffekten erzeugen.

Набор образцов отделки Alf DaFrè сегодня дополняется новым вариантом отделки "крашенный мicalizzato" цветов Oro и Palladio.
Данная окраска предусматривает использование пигментов на основе порошкового металла, создающих эффект изысканного перламутрового блеска.

STANZA 01 / **NEUTRI IN CONTRASTO**

Il contrasto tra i colori neutri diventa più delicato quando le tonalità chiare non sono bianche ma contengono i toni del grigio (tortora) e del marrone (nude).

Sono tonalità che permettono alla geometria di esprimersi per arricchire.

ROOM 01 / **CONTRASTING NEUTRALS**

The contrast between neutral colours takes on greater delicacy when the light shades are not white but contain grey (tortora) and brown (nude) tones.

They are shades that allow the room's geometry to express itself in order to enhance it.

STANZA 02 / NERO E LUCE

Il colore scuro in arredamento è assenza di luce e per contrasto la esalta.

Il grigio scuro o nero è il colore dell'ombra e del crepuscolo, dell'eleganza, dell'intimità.

E' lo sfondo ideale per dare lustro e visibilità a tutti gli elementi d'arredo con altre tonalità.

ROOM 02 / BLACK AND LIGHT

In interior design a dark colour is the absence of light and as a contrast it highlights it.

Dark grey or black are the colours of shade and twilight, elegance and intimacy.

This is the ideal background to give lustre and visibility to all the furnishing elements in other shades.

STANZA 03 / **TONO SU TONO**

Il tono su tono si arricchisce e diventa delicato se le superfici hanno materie diverse.

La neutralità del grigio rende austero il legno chiaro ed esalta l'accostamento con il fashion wood scuro.

ROOM 03 / **TONE ON TONE**

Tone on tone becomes more attractive and delicate if the surfaces are made of different materials.

The neutrality of grey makes light wood austere and intensifies its juxtaposition with dark fashion wood.

STANZA 04 / PAESAGGIO ITALIANO ROOM 04 / ITALIAN LANDSCAPE

Se in arredamento usiamo il monocolore per arredare una stanza il verde è l'unico colore che riequilibra tutti gli spazi e da armonia alla percezione dello stesso. Il verde è il colore del paesaggio, la tonalità dominante della natura. Le sfumature di questo colore sono infinite: dalle nuance calde ed invernali a quelle fredde ed esuberanti e tutte possono essere mescolate tra loro. Si addice alle tonalità neutre e naturali che spesso accompagnano l'arredamento come il marrone, sabbia e grigio.

In interior design, if we use monochrome to furnish a room, green is the only colour that can rebalance all the spaces and bring harmony to how it is perceived. Green is the colour of the countryside, nature's dominant shade. There are infinite nuances of this colour: from warm winter hues to cool exuberant shades and they can all be mixed up together. It goes well with the neutral and natural shades that are often combined in interior design such as brown, sand and grey.

STANZA 05 / TEXTURE

I legni lavorati si riferiscono ad un ambiente austero, elegante e retrò. In versione contemporanea i legni lavorati vanno stemperati da materiali neutri e lisci. Le tinte di questi legni sono forti e vanno incoraggiate ed accompagnate da tessuti dai colori terra (bruciati, gialli, marrone). Se nello stesso ambiente girano altri e svariati elementi d'arredo avranno tonalità chiare e neutre (grigio chiaro e grigio scuro).

ROOM 05 / TEXTURE

Carved woods relate to an austere, elegant, retro environment. In the contemporary version, carved woods are toned down by smooth, neutral materials. These woods have strong colours and are set off and enhanced by fabrics in earth colours (burnt shades, yellow, brown). If there are other assorted furnishing items around the same room they will be in light and neutral shades (light grey and dark grey).

STANZA 6 / I CONTRASTI 2019

Usare una tonalità chiara per un divano molto grande è d'obbligo se si vuole dilatare l'ambiente.
Questo ci permette di poter usare tonalità scure sulle pareti e sui soffitti. I disegni in contrasto sugli accessori tessili diventano il tocco particolare e contemporaneo per un ambiente che gioca sui chiaro-scuro.

ROOM 6 / CONTRASTS 2019

A light shade must be used for a very large sofa if you want to give a sense of space to the room.
This allows us to use dark shades on the walls and ceilings. Contrasting designs on fabric accessories become a special contemporary touch for a room that plays with light and dark.

STANZA 07 / **AMARANTO**

L'idea di questo ambiente è di usare un colore forte e caratterizzante sui dettagli: mensole, cassettiere ed imbottiti.

Perché il colore si coordini all'ambiente ed emerga come dettaglio armonioso si deve usare insieme ad un neutro scuro che diventa contemporaneamente sfondo e dominante. L'amaranto con le sue tonalità deve essere l'unico colore che interviene nello spazio.

ROOM 07 / **AMARANTO**

The idea for this room is to use a strong distinguishing colour in the details: shelves, drawer units and upholstery.

For the colour to be coordinated with the room and for it to be a harmonious detail, it must be used with a dark neutral that becomes both the background and the dominant shade. Amaranto in all its various shades must be the only colour that appears in the space.

STANZA 08 / I MATERIALI E LE FORME

E' un ambiente caratterizzato da forme curve che dialogando tra loro mettono in risalto i materiali dalle texture diverse (lisci, materici). Tessuto, marmo, metallo entrano comunque in gioco per qualificare in maniera elegante e contemporanea un oggetto che è sempre protagonista dell'ambiente notte. La monocromia accentua la forma, il contrasto (marmo bianco) pone l'accento sul particolare.

ROOM 08 / MATERIALS AND SHAPES

This is a room characterised by curved shapes that work together to highlight the materials with different textures (smooth, textured). Fabric, marble and metal come into play, however, to characterise an object that always takes the lead in the bedroom, in an elegant and contemporary way. Monochrome accentuates the shape; the contrast (white marble) puts the accent on the specific element.

STANZA 10 / **PETROLIO**

La cultura Maja non distingueva il blu dal verde e la parola che definiva questo colore era blu/verde, da cui nasce il colore petrolio. I colori blu e verde sono considerati altamente rilassanti, rallentano le frequenze del battito cardiaco, sono quindi colori adatti agli ambienti notturni.

La proposta di contrastare queste tonalità con i gialli è l'idea di caratterizzare in maniera più frizzante l'ambiente e adeguarlo alle proposte moda 2019.

ROOM 10 / **PETROLIO**

The Maja culture did not distinguish blue and green, and the word that defined this colour was blue/green, from which we get the colour Petrolio. The colours blue and green are considered to be very relaxing, slow down our heartbeat, and are therefore colours that suit bedtime areas.

The idea of contrasting these shades with yellows is to give the room a livelier ambience and make it suitable for 2019's latest fashions.

STANZA 11 / SOFFITTI SCURI

Siamo in una situazione simile alla stanza 01 dove spazio scuro si mescola ai neutri più chiari. In questo caso si ha la percezione di un ambiente più ampio, questa sensazione è data dall'uso del soffitto scuro che schiaccia la scatola e allontana le pareti.

ROOM 11 / DARK CEILINGS

We are in a similar situation to room 01 where dark space is combined with lighter neutrals. In this case the room appears more spacious. This sensation comes from the use of a dark ceiling that flattens the box and makes the walls seem further away.

LE FINITURE

I materiali utilizzati dalla nostra azienda sono selezionati tra i più affidabili per applicazione e resa estetica.

Nonostante questo devono considerarsi tollerabili alcune differenze dovute alle caratteristiche stesse di materiali come essenze naturali, vetri, laccature e all'artigianalità di alcune fasi del processo produttivo che da sempre è un nostro valore aggiunto.

Inoltre alcune finiture possono subire nel tempo maturazioni dovute all'azione della luce e del tempo.

È importante quindi specificare se nell'ordine vi sono sostituzioni o completamenti per valutare insieme il miglior modo di procedere.

Le finiture contenute nel presente campionario hanno valore indicativo e non sono disponibili per tutti i prodotti.

Verificare a listino e nel sito internet www.alfdafre.it quale finitura è disponibile per l'articolo prescelto.

Non si accetteranno ordini di prodotti con finiture non previste a listino.

La presente scheda annulla e sostituisce ogni precedente riferimento palette colori e materiali stampato.

FINISHES

The materials we use are selected among the most reliable products in terms of application and aesthetic rendering.

Despite this, certain differences due to the very characteristics of materials such as natural wood finishes, glass and lacquers must be considered tolerable, as well as the hand-crafted nature of certain phases of the production process, which has always been one of our added values.

In addition, some finishes may change over time, due to the effects of light and time.

It is therefore important to specify whether there are replacements or completions in the order to assess the best way to proceed together.

The finishes featured in this sample collection are purely indicative and are not available for all products.

Please check in the price list and in our internet site www.alfdafre.it what finish is available for the chosen item.

Orders will not be accepted for products with finishes not included in the price list.

This datasheet cancels and replaces all previous references to the colour chart and printed material.
